Midland TOOL & Supply

What is *StockUp*®

Our *StockUp*® Program is designed to be an extension of our warehouse to stock customized inventory at your location. Check out our website and YouTube video to learn more.

Customizable Inventory

Work with our *StockUp*® team to select products and inventory levels, based on your scope of work.

Various Storage Options

Based off inventory and location, we utilize trailers, connexes and tool rooms to efficiently store inventory on your site.

Automated Inventory Control

Cloud Based software automatically tracks and replenishes inventory based on usage.

Unlimited Access

24/7 access to our *StockUp*® program is available for selected team members.

VMI Inventory Management

Provides comprehensive inventory tracking, including daily usage data and location-specific consumption insights.

Nationwide Shipping

Whether you are down the street or across the country, we can deliver to your jobsite.

The Software

Our supply containers are equipped with our user friendly inventory replenishment software. Manage stock on any mobile device by using the *StockUp*® app and keep necessary supplies on hand.

QR Coded
Scan products out as they are pulled from the shelves, and see immediate inventory updates using any connected mobile device.

Automated Replenishment
Inventory levels are managed by mins and maxes, meaning product is automatically repleished when thresholds are met.

Reporting
Customize your jobsite's inventory, expense reporting, and setup automatic reports to be sent to select personnel.

Real-time Visibility
Access and monitor your inventory remotely, ensuring up-to-date information on stock levels and availability.

Ready to get started?

It's time to get serious about your supplies! With our help, even the largest construction projects are able to be stocked with immediate access to the tools and supplies you need. Schedule a call with our *StockUp*® Field Support Manager to customize your inventory today.

StockUp® in Your Pocket

Midland Tool makes it easy to get exactly what your site needs. Using our *StockUp*® app, you can manage onsite inventory from the convenience of your smartphone. Scan products out, check inventory levels and replenish stock all in one place. Simply look for the icon to the right and download the app in the Apple or Google Play Store and *StockUp*® your site.

Stockup® In-House

Customizable consignment inventory

Efficient shelving and stackable plastic bins

Clearly labeled bin locations

24/7 onsite access and unlimited users

Utilizing our *StockUp*® Program in-house ensures that you always have the resources you need when it's time to tool up a job. With inventory readily available in your own shop, you gain better visibility into daily purchases and usage. It's like having a personal Midland Store right at your fingertips.

The Benefits

How can onsite supply help enhance productivity on your project? Our *StockUp*® program is designed to address specific pain points around your project and make your job easier.

1 Reduce Cost and Downtime

StockUp® puts the products you consistently order directly on the jobsite, reducing your downtime and delivery costs.

2 Systematic Invoicing

StockUp® can generate invoices daily, or weekly reducing P.O. processing time.

3 Report and Forecast

StockUp® software can generate reports to inform management about product by shift, trade or peak manpower. This information can be used to forecast needs for future jobs or outages.
